## REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The instant invention claims a film comprising plural layers of cellulose acylate wherein layers have different average degrees of acylation. A method to make such film is also claimed. The closest prior art references that relate to the claimed invention are Honda'358 and Yamazaki'500. The prior art teaches that it is known to make and use cellulose acylate films. However, the prior art does not teach or suggest the claimed film having plural layers or method to obtain such film and having the claimed properties..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
